Policy Implementation

The superintendent is responsible for implementing Board policies and for interpreting them to staff, students and patrons. Other administrators share in this responsibility.

Many of the Board's policies require implementing administrative regulations. The superintendent will develop and approve these regulations, in consultation with principals, staff members and other persons and groups as appropriate.

Policies officially adopted by the Board and administrative regulations formulated to implement adopted Board policies will be included in the Board Policy and Administrative Regulation Handbook. Each school shall provide at least one copy in the school office and on the district web site.

Staff, student and parent handbooks also will be used for disseminating policies and regulations to persons directly affected by them.

Principals are authorized to establish rules and procedures for the staff and student bodies of their schools as long as these rules and procedures are consistent with policies and regulations established by the Board and superintendent.
