Funding Proposals and Applications

The Board has as its primary mission the education of district students according to adopted goals and objectives. To this end all legal and worthwhile financial resources will be pursued.

The district will pursue those grants and other sources of funding that will assist the district in meeting the adopted goals and objectives of the current curriculum or will create facilities, purchase equipment or otherwise assist in implementing such programs as the Board has previously considered/approved.

Indirect costs, except as otherwise precluded by the grant, shall be charged at the state approved rate for the district.

The Board directs that each presentation regarding the receipt of outside funding include the obligations, expectations or encumbrances which will exist when the grant or other outside funding ceases.

All grant proposals must be submitted to the superintendent or designee for approval prior to application development and submission or for further approval by the Board if required by the grant or outside funding service.

The Board reaffirms its veto power over all grants prior to actual acceptance of funds.
